

FCT::ObjectPoolChunk
::ObjectPoolChunk

FCT::ObjectPoolChunk
::ObjectPoolChunk

FCT::ObjectPoolChunk
::ObjectPoolChunk

```
graph LR; A[FCT::ObjectPoolChunk  
::ObjectPoolChunk] --> C[FCT::ObjectPoolChunk  
::ObjectPoolChunk]; B[FCT::ObjectPoolChunk  
::ObjectPoolChunk] --> C;
```

The diagram illustrates a merge or consolidation process. On the left, there are two separate white rectangular boxes, each containing the text 'FCT::ObjectPoolChunk' followed by '::ObjectPoolChunk' on a new line. Blue arrows point from the right side of each of these white boxes to a single gray rectangular box on the right. This gray box also contains the same text: 'FCT::ObjectPoolChunk' followed by '::ObjectPoolChunk' on a new line. The gray box is positioned such that it receives input from both white boxes, suggesting a final state or a merged entity.
