

FCT::RenderGraph::execute

FCT::RenderGraph::submit

FCT::Pass::submit

```
graph LR; A[FCT::RenderGraph::execute] --> C[FCT::Pass::submit]; B[FCT::RenderGraph::submit] --> C;
```

The diagram illustrates a flow where two separate operations, 'FCT::RenderGraph::execute' and 'FCT::RenderGraph::submit', both lead to a single operation, 'FCT::Pass::submit'. The first two boxes are white with black borders, while the final box is gray with a black border. Blue arrows indicate the direction of the flow from left to right.
