

FCT::RenderGraph::computeSize

```
graph LR; A[FCT::RenderGraph::computeSize] --> B[FCT::Window::getHeight]; A --> C[FCT::Window::getWidth];
```

The diagram illustrates a function call sequence. A gray rectangular box on the left contains the text 'FCT::RenderGraph::computeSize'. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing 'FCT::Window::getHeight'. The bottom arrow points to another white rectangular box containing 'FCT::Window::getWidth'. All boxes have a thin black border.

FCT::Window::getHeight

FCT::Window::getWidth
