

FCT::VK_PassResource
::addConstBuffer

FCT::VK_PassResource
::addSampler

FCT::VK_PassResource
::addTexture

FCT::VK_PassResource
::markAllDescriptorSetsDirty

```
graph LR; A[FCT::VK_PassResource::addConstBuffer] --> D[FCT::VK_PassResource::markAllDescriptorSetsDirty]; B[FCT::VK_PassResource::addSampler] --> D; C[FCT::VK_PassResource::addTexture] --> D;
```

The diagram illustrates a control flow or dependency where three functions on the left (addConstBuffer, addSampler, and addTexture) all lead to a single function on the right (markAllDescriptorSetsDirty). The arrows are blue and point from the source functions to the target function. The target function box is shaded gray, while the source function boxes are white with black borders.
