

FCT::VertexElement
::getSize

```
graph LR; A[FCT::VertexElement::getSize] --> B[FCT::FormatSize]
```

A diagram showing a call from the `FCT::VertexElement::getSize` method to the `FCT::FormatSize` class. The left box is gray and contains the text `FCT::VertexElement::getSize`. A blue arrow points from this box to a white box on the right containing the text `FCT::FormatSize`.

FCT::FormatSize
