

FCT::VK_FencePool::
setDestroyCallback

FCT::VK_FencePool::
VK_FencePool

FCT::RHI::VK_Fence
::destroy

```
graph LR; A[FCT::VK_FencePool::setDestroyCallback] --> C[FCT::RHI::VK_Fence::destroy]; B[FCT::VK_FencePool::VK_FencePool] --> C;
```

The diagram illustrates two function pointers originating from the FCT::VK_FencePool namespace and pointing to the FCT::RHI::VK_Fence::destroy function. The first pointer, setDestroyCallback, is shown in a white box with a black border. The second pointer, VK_FencePool, is also in a white box with a black border. Both pointers are represented by blue arrows pointing to a gray box containing the target function signature, FCT::RHI::VK_Fence::destroy.
