```

The diagram illustrates a mapping or inheritance relationship. On the left, two white rectangular boxes with black borders contain the function signatures `FCT::ShaderGenerator::generateShaderIn` and `FCT::ShaderGenerator::generateShaderOut`. On the right, a gray rectangular box with a black border contains the function signature `FCT::ShaderGenerator::generateFromPixelLayout`. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both `generateShaderIn` and `generateShaderOut` are associated with or mapped to `generateFromPixelLayout`.
