The diagram illustrates a dependency or call relationship. Three source functions, each in a white box with a black border, are positioned on the left. Blue arrows point from each of these source functions to a single target function located on the right. The target function is contained within a gray box with a black border. The source functions are 'FCT::VK_PassResource::bind', 'FCT::VK_PassResource::getDescriptorSet', and 'FCT::VK_PassResource::update'. The target function is 'FCT::VK_PassResource::recreateDescriptorSetsIfNeeded'.
