FCT::RenderGraphNode  
::operator|=

FCT::RenderGraphNode  
::RenderGraphNode

```
graph LR; A[FCT::RenderGraphNode::operator|=] --> D[FCT::RenderGraphNode::RenderGraphNode]; B[FCT::RenderGraphNode::operator|=] --> D; C[FCT::RenderGraphNode::operator|=] --> D;
```

The diagram illustrates a merge or consolidation process. On the left, there are three separate boxes, each containing the text 'FCT::RenderGraphNode::operator|='. Blue arrows from each of these three boxes point towards a single box on the right. The box on the right is shaded gray and contains the text 'FCT::RenderGraphNode::RenderGraphNode'.
