

FCT::Edge

```
classDiagram
    class FCT_Edge["FCT::Edge"]
    class FCT_TextureEdge["FCT::TextureEdge"]
    FCT_TextureEdge --|> FCT_Edge
```

The diagram illustrates a class hierarchy. At the top is the 'FCT::Edge' class, represented by a rectangle divided into three horizontal sections. The top section contains the class name, while the two bottom sections are empty. Below it is the 'FCT::TextureEdge' class, represented by a shaded rectangle divided into three horizontal sections. The top section contains the class name, the middle section lists four public attributes ('+ size', '+ fromImage', '+ toPass', '+ stage'), and the bottom section is empty. A blue arrow points from the top of the 'FCT::TextureEdge' class to the bottom of the 'FCT::Edge' class, indicating that 'FCT::TextureEdge' inherits from 'FCT::Edge'.

FCT::TextureEdge

+ size

+ fromImage

+ toPass

+ stage
